

PROVIDERS OF MARITIME SECURITY TRAINING

Applied Research Associates, Inc.

119 Monument Place
Vicksburg, MS 39180
Phone: (601) 638-5401
Fax: (601) 634-0631

www.ara.com

Contact: Phillip L. Doiron (pdoiron@ara.com)

ARA is a research and engineering company offering defense and civil technologies. The company's Security Engineering staff can assist with security assessments, development and review of security policies and procedures, and with personnel training tailored to the needs of the facility.

Black & Veatch Special Projects Corp.

661 College Blvd., Q6
Overland Park, KS 66211
Phone: (913) 458-4393
Fax: (913) 458-4700

www.bv.com

Contact: Ed Wiseman (wisemanel@bv.com)

Black & Veatch is the contractor for the U.S. Coast Guard's review of all maritime Facility Security Plans (FSP), and is providing associated training on the relevant regulations and procedures.

The Kansas City-based company also offers three- and four-day courses to private industry and port personnel as Facility Security Officers or Facility Personnel with Security Duties, as well as security training for other Port Personnel. Training courses are held at the company's Washington, DC, facilities or Kansas City facilities, or at individual port facilities by arrangement.

Black and Veatch also offers services in support of facility operators who require clarification or consultation related to writing, submitting, and implementing port security plans.

Embarcadero Systems Corporation

1701 Harbor Bay Parkway
Alameda, CA 94502
Phone: (510) 749-7400
Fax: (510) 749-3800

www.esystem.com

Contact: Sean Strawbridge, Vice President, Professional Services (seans@esystem.com)
The ESC Professional Services Group offers over twenty years of expertise in maritime operations and security. The company has extensive experience in security assessments and inspections, drafting Facility Security Plans, and completing TSA Port Security Applications. Facility-specific security system design and support includes systems integration and project management, with knowledge of federal and government agency programs. ESC can develop and coordinate facility security drills and exercise and establish performance metrics and reports.

Enterprise Protection Associates

1275 West 6th Avenue
Vancouver, BC, Canada V6H 1A6
Phone: (604) 677-1607
Fax: (604) 688-5032

www.enterprise-protection.com

Contact: Stuart Bourhill (bourhill@enterprise-protection.com)

Enterprise Protection Associates offers web-based (eLearning) and classroom, full-featured ISPS Code compliant security training for all port facility stakeholders and personnel tailored to meet their individual knowledge, responsibility and function needs. The company's familiarity with the ISPS Code and related MTSA/MTSR regulations is demonstrated in topics and lesson plans such as:

Security Overview. (Purpose and Objectives, Key Terms, Definitions and Acronyms, Administration and Organizational Structure for Port Security)

Security Duties & Responsibilities. (Marine Facility Security Assessment, Marine Facility Security Plan, Marine Facility personnel with security responsibilities, Drills and Exercises)

Security Access Controls. (Physical Security Measures, Logical Security Measures, Access Controls, Personnel Identification)

Communications. (Escalation/De-escalation Procedures, Media Protocols)

Global Marine Security Systems Company

245 Park Avenue, 39th Floor
New York, NY 10167
Phone: (212) 420-0233
Fax: (212) 614-2375

www.gmssco.com

Contact: Mark Dunn (info@gmssco.com)

GMSSCO provides comprehensive security training, security solutions and risk management programs for the maritime sector that are fully compliant with the ISPS Code, MTSA and USCG regulations. The company can conduct Port Facility Security Assessments and Ship Security

Assessments and write Port Facility Security Plans and Ship Security Plans. In addition to General Security Awareness Training Courses, training is offered for Ship Security Officers, Port Facility Security Officers, and Company Security Officers.

IDS International LLC

174 Bellevue Avenue, Suite 300

Newport, RI 02840

MacDonnell Group Ltd.

1505 Barrington Street, Suite 1100

Halifax, NS B3J 2Z1

Phone: (902) 425-3980

Fax: (902) 423-7593

www.macdonnellgroup.com

Contact: Richard Morash (rmorash@macdonnellgroup.com)

MacDonnell Group provides comprehensive security training, security solutions and risk management programs for the maritime sector that are fully compliant with the ISPS Code and individual country regulations. The company conducts Port Facility Security Assessments and Ship Security Assessments and has prepared numerous Port Facility Security Plans. In addition to General Security Awareness Training Courses, training is offered for Ship Security Officers, Port Facility Security Officers, and Company Security Officers in the following categories:

- Training for Facility Security Officers. Three-day course for Port Facility Security Officers encompassing the necessary compliance responsibilities for the international Port Facility Security requirements.
 - Training for Facility Personnel with Security Duties/Responsibilities. One-day training course provides personnel with security responsibilities the knowledge and tools necessary to carry out assigned duties under the ISPS Code and CFRs.
 - Training for all other Port Personnel. Training provided for all other port personnel with an understanding of the new Port Security Regulations.
 - Preparation of Internal Security Procedures. Develop security procedures to allow implementation and monitoring of an approved security plan.
 - Security Audits. Review existing security plans for compliance with ISPS Code Regulations of signature country.
 - Drill and Exercise Management. Preparation and management of drills and exercises required for the implementation of an approved security plan.
 - Design Facility Security and Infrastructure. Our engineers have many years experience with marine facility design.
 - Marine Security Business Plans. Preparation of business plans related to implementation of security plan measures including capital and operating cost forecasts, tariff setting and grant application management.
-

SeaSecure LLC

3471 N. Federal Highway, Suite 506
Ft. Lauderdale, FL 33306
Phone: (954) 567-4700
Fax: (954) 567-2511

www.seasecure.com

Contact: Ron Thomason, Vice President, Operation (arthomason@seasecure.com)

SeaSecure provides ISPS Code and MTSA-compliant training that conforms to the IMO's model course outline. SeaSecure conducts training courses at its Ft. Lauderdale location, and the facility security officer training can be provided for clients at their own site. The company offers a five-day Maritime Security Management and Operations Course, which is also available as a video/DVD training program.

Instruction is also available for facility personnel with specific security duties, enabling them to meet performance requirements at each MARSEC level. Training in basic maritime domain awareness for port personnel without specific security duties will enable them to understand the nature of the threat, the vulnerabilities of their facility and operations, and their responsibilities at all MARSEC levels.

Trident Security Associates, LLC

7320 E. Fletcher Avenue
Tampa, FL 33637
Phone: (813) 298-0432
Fax: (813) 426-3685

www.tridentsecurityassociates.com

Contact: Len Cross (813-909-7669) training@tridentsecurityassociates.com

Trident Security Associates offers the following training programs:

- Training for Facility Security Officers. Comprehensive and facility-specific instruction satisfying regulatory requirements and providing Facility Security Officers with security management tools necessary for maintaining compliant oversight of regulated facilities.
- Training for Facility Personnel with Security Duties. Regulatory compliant instruction offering the necessary skills and knowledge required to help security personnel safeguard maritime operations and maintain facility security program integrity.
- Training for all other Port Personnel. Regulatory compliant instructor-led, on-line or DVD-delivered facility maritime security awareness instruction designed to prepare non-security personnel to work in secured maritime environments.
